

MVP Operational Plan: A **smart weekly coaching system** with lightweight digital support

May 2026

Flexible Programs Designed Around Patient Needs

BASIC PLAN

Accountability Program

₹990/month

For patients looking for lightweight accountability and structured follow-up.

Includes:

- Daily WhatsApp check-ins
- Personalized reminders
- Monthly coaching call
- Educational resources
- Progress summaries

COMPREHENSIVE PLAN

Structured Coaching Program

₹1,990/month

For patients looking for personalized lifestyle support.

Includes:

Everything in Basic, plus:

- Personalized nutrition plan
- Personalized movement guidance
- Initial onboarding session

Bi-weekly coaching follow-ups

PREMIUM PLAN

Advanced Monitoring Program

₹3,990/month

For patients requiring closer monitoring and higher-touch support.

Includes:

Everything in Comprehensive, plus:

- Glucose tracking support
- Higher-frequency follow-ups
- Advanced progress reviews
- Priority support

The Basic Plan

The Basic Plan: Operational Steps

The Basic Plan: Dashboard

SECTION 1 — TODAY STATUS

Example:

“5 consistent days this week 🍌”

Today’s focus:

- protein breakfast
- 20-min walk

SECTION 2 — PROGRESS

ONLY 3 CARDS

CARD 1 — WEIGHT

Simple line graph.

X-axis:

days

Y-axis:

weight

That’s it.

No fancy analytics.

CARD 2 — CONSISTENCY SCORE

Big circle:

“74% consistency this week”

Based on:

- daily responses

Simple.

CARD 3 — ENERGY TREND

Very small graph:

- low

- medium

- high

This matters emotionally.

SECTION 3 — WEEKLY INSIGHT

MOST IMPORTANT SECTION.

Written manually by coach.

SECTION 4 — NEXT CHECK-IN

“Coach review:

Sunday 6 PM”

The Comprehensive Plan

The Comprehensive Plan: Operational Steps

The Comprehensive Plan: Dashboard

SECTION 1 — METABOLIC SCORE

Big card:

“Metabolic Score: 71/100”

↑ improving

Calculated from:

- glucose
- adherence
- weight trend
- energy

Simple formula internally.

Patient doesn't need details.

SECTION 2 — WEIGHT GRAPH

Simple line.

SECTION 3 — GLUCOSE GRAPH

ONLY fasting glucose.

Simple line graph.

Green zone:

80–120

Yellow:

120–140

Red:

140+

DONE.

SECTION 4 — PATTERN INSIGHTS

THIS is your moat.

Examples:

- “Sleep quality affects glucose.”
- “Weekends reduce consistency.”
- “Activity improving energy.”

SECTION 5 — FOCUS THIS WEEK

ONLY 1–2 priorities.

The Premium Plan

The Premium Plan: Operational Steps

90 mins onboarding call with the Dietician, Fitness Coach and Care Coordinator

- Includes:
- medical review
 - glucose history
 - medications
 - eating timing
 - sleep
 - cravings
 - stress
 - weight history
- Premium patients MAY:
- upload glucometer readings
 - upload meals occasionally
 - use CGM optionally

Dietician develops a personalized playbook

Section	Example
biggest trigger	late-night hunger
eating pattern	skips breakfast
movement goal	5k steps
sleep goal	before midnight
glucose goal	fasting under 120

Same as comprehensive plan, but optionality to also upload meal pic

Optional 📌
Share a photo of one meal today if you'd like feedback from the team.

Through review from Dietician and Care Coordinator every Friday

Signal	Example
glucose spikes	dinner problem
hunger despite GLP-1	protein/fiber issue
fatigue	muscle loss risk
weight loss too fast	risk
poor sleep	cortisol impact

And provides curated guidance

Example:
“Your fasting glucose variability remains highest after weekends.
Current pattern suggests:
•inconsistent dinner timing
•lower activity Saturday/Sunday
Weight loss pace is appropriate and energy remains stable.
This week’s focus:
•structured dinner timing
•post-meal walking
•protein intake consistency”

The Premium Plan: Dashboard

SECTION 1 — METABOLIC SCORE

SECTION 2 — WEIGHT + GLUCOSE

SECTION 3 — GLUCOSE STABILITY

NOT average only.

Show:

- stable
 - variable
 - improving
- Simple visual.

SECTION 4 — PERSONAL INSIGHTS

MOST IMPORTANT.

Examples:

- “Sleep affects glucose.”
- “Late dinners worsen fasting sugar.”
- “Activity improves recovery.”

SECTION 5 — CARE TEAM ACTIONS

Example:

- increased protein target
- adjust dinner timing
- discuss medication with doctor
