

S.No.	CURRENT STATE	WHAT TO CHANGE INTO
1.		Rename the Header - Page Names with Home Programs & Pricing Connect with us / Get onboard Blogs FAQs About Us Login
2.		Decrease the padding above and below. Change the wording to - “Personalized, doctor-led care for sustainable metabolic health.” Our focus isn't on obesity or diabetes, it's rather on sustainable medical assistance and linkage between the doctor and the patient. Probably we can play with ‘Get Started’ and ‘For Physicians’ 
3.		If we can get it slidable on phone set up The text is too AI made and or basically of no sense, Like ‘Generic Advice Fails ’ i mean what’s the point of this no one is there to read a ChatGPT prompted outcome we gotta do something attractive and crisp - no ai text all real words that actually mean something. Remember culture is what keeps the organisation working and moving ahead. Uhm probably a text filled with sentences directly like most dieticians go ahead with typical and generic treatments and advice without understanding the depth of the situation and personalising the care procedure hence moving according to the basic reaction plan. - we can go with a common reaction- plan treatment approach.. Motivation Drops Over Time - inconsistency is what is to be beaten and taken care off, We have to come up with connective statements not common vocab tables. Lack of a personal care taker - ‘Care Is Fragmented ’ - your friendly and owned up commentator who will monitor u no matter what and where u are. Your in-checks will be tackled by YOUR doctor and our merit holder and worldly experienced dieticians and care givers - ‘Progress Is Hard To Measure ’ CRUX - Humanize the touch and AI the built NOTE : our skeleton is AI but the layering up of muscles, nutrients, skin and emotions is what is under human control and implementation -

		supervision - APPLY IT! We should decrease padding
4.		We should decrease padding Black to the theme based uniform appearance Slide through on phone just like previous correction We can probably let the text be as it is! 
5.		Decrease the padding, and if we can replicate it to either of the two images. 
6.		Also if we can go ahead with ‘Basic Plan’, ‘Comprehensive Plan’ and ‘Premium Plan’ replacing the ‘Accountability Program’, ‘Structured Coaching’ and ‘Advanced Monitoring’ and get these three as the sub heading or subsidiary text that defines the plan briefly. Without changing the colour theme

7.		I think padding can be worked upon
8.		If we can get this on instead of get started in the end and directing us to a contact us page. It looks better - After FAQ and before Footer Needs lesser padding
9.		Decrease padding Have ‘For Physicians’ turn into ‘Physician’s Portal’ and replicate the CTA of that of Patient Portal Probably programs remain at the top and FAQs at the bottom under platforms heading. Another column to be added of Contact us section with necessary info, address and social media handle.

12. Patient’s Portal - Step 1 (Registering / Signing in)

Ready to build sustainable health habits?

Join Cloudberry today and get a dedicated care team to support your long-term metabolic health journey.

Submit your CV

Or a form kind of stuff, With a thank you message/pop up -
“Thank you for contacting Cloudberry.

Your form has been submitted successfully. Our team will review your query and get in touch with you shortly to assist you further.

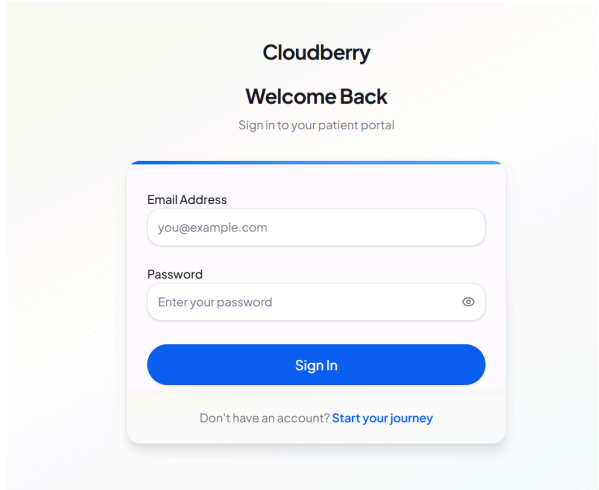

Happy sustainable and metabolic living.”
-

Along with above we can add a sign in/Login option - Probably on the header, Like instead of Get Started we can directly go ahead with a login button on header (Like the sign in option)

redirecting to a pop-up

and leading to sign in page

and this shall redirect to the dashboard - Patient Portal.

13.	Patient's Portal - Step 2 ('Onboarding')	1. 20-30 mins onboarding call with the Care Coordinator - In case of Comprehensive plan, addition shall be made -> 60 mins onboarding call with Dietician and Care Coordinator to define a personalized playbook. - In case of Premium plan, addition shall be made -> 90 mins onboarding call with the Dietician, Fitness Coach and Care Coordinator. 2. Initial assessment form to be filled by patient on the dashboard which shall include a questionnaire: • Current metabolic status - Document uploading interface • Medication history - Document uploading interface • Behavioural challenges • Nutrition patterns • Activity levels • Patient goals • Any certain characteristics or habits or stuff to take care of. - In case of Comprehensive plan, addition shall be made -> Define a personalized playbook. - In case of Premium plan, additions shall be made -> Also includes: • Medical review • Glucose history • Medications • Eating timing • Sleep • Cravings • Stress • Weight history Premium patients MAY: 1. upload glucometer readings (incl. access to CGM) 2. upload meals occasionally A review shall be conducted and up until the review the portal shall not be accessible - Status - Pending.
-----	--	--

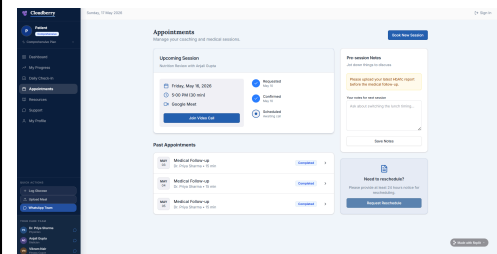

Each Dashboard shall have a left side vertical Panel with basic level of 3 things

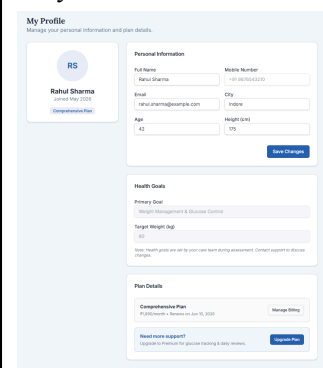

- Updated Dashboard - With progress and current status having recommendations comments and so on
- Daily Check ins - With Questionnaire on Daily Updates

(We can swap updated dashboard and daily check ins Order)

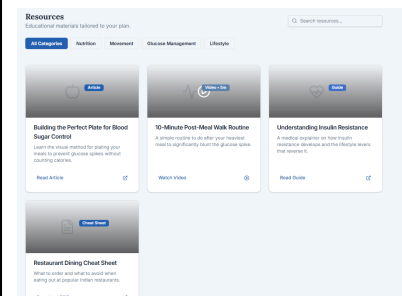

- Appointments/Schedule -

- My Profile And Resources

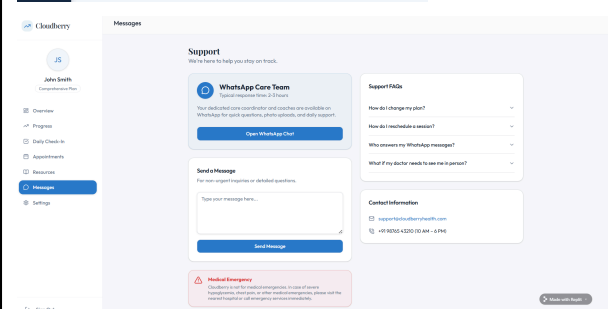

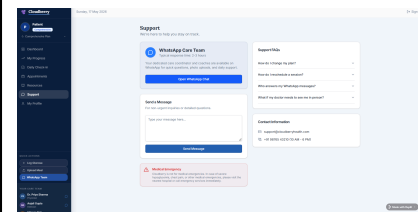

and

#Resources Section shall have all the required reports and documents for reference and of importance both which are to be considered and used by the patient.

- Support

		- Setting at the bottom most part of the vertical frozen panel												
15.	Patient's Portal Dashboard - STEP 3	Enter the dashboard with top left side having a Welcom card listing weekly and monthly focus - which basically are the recommendations and goals set based on doctor, physician and caretaker's discussion. - Basic Plan shall include <table><tr><th>Variable</th><th>Target</th></tr><tr><td>Weight</td><td>-2 Kgs</td></tr><tr><td>Waist</td><td>-1 inch</td></tr><tr><td>Goal</td><td>Reduce sugar</td></tr><tr><td>Biggest challenge</td><td>Cravings</td></tr><tr><td>Primary focus</td><td>Evening eating</td></tr></table> - Comprehensive and Premium Plan shall also include 	Variable	Target	Weight	-2 Kgs	Waist	-1 inch	Goal	Reduce sugar	Biggest challenge	Cravings	Primary focus	Evening eating
Variable	Target													
Weight	-2 Kgs													
Waist	-1 inch													
Goal	Reduce sugar													
Biggest challenge	Cravings													
Primary focus	Evening eating													

16. Patient Portal - Step 4 -> Daily Check ins / Prompts

Basic Plan [Care Coordinator sends structured daily check-ins every evening (7–9 PM)]

Hi Rahul 🌟
Quick check-in for today
Today May 12, 2025
Your responses help us support you better.

1. How manageable did your routine feel today?
0-10 scale
0 5 10
Fully Mostly Struggled
8 / 10

2. What was hardest today?
Cravings Stress eating Eating outside
Low motivation Poor sleep Busy schedule
Other

3. Energy today?
Good
Average
Low

Comprehensive Plan [Care Agent sends automated messages every evening (7–9 PM)]

Hi Rahul 🌟
Quick check-in for today
Today May 12, 2025
Your responses help us support you better.

Nutrition consistency today?
0-100 scale
0 50 100
78
Fully Mostly Struggled

Activity completed?
0-100 scale
0 50 100
65
Yes Partial No

Hunger / cravings today?
0-100 scale
0 50 100
40
Low Moderate High

Energy today?
0-100 scale
0 50 100
75
Good Average Low

Sleep quality last night?
0-100 scale
0 50 100
70
Good Average Poor

Great job staying consistent!
Small daily actions lead to big lasting results.
Keep going - you're doing amazing!

Your daily check-ins help us personalize your plan and celebrate your progress!

Premium Plan [Same as comprehensive plan, but optionality to also upload meal pic and post-meal glucose 1-2x per week]
